Product Overview

This cradle is custom fit to the Zebra ET401 10" Tablet with rugged boot (also supports optional expansion back). The scanner can function through the scan window on the side of the cradle while docked and locked in place.

This cradle also fits the Zebra ET40 / ET45 10" tablet with rugged boot.

Featuring a backplate with AMPS and VESA 75 hole patterns for easy mounting.

The USB-A host port allows barcode scanners, keyboards, RFID readers and more to be directly connected to the cradle and communicate to the tablet through the pogo pin connection. The port includes cable retention to ensure the cable doesn't loosen over time.

This cradle is designed with a modular system that allows it to be easily upgraded and serviced without having to replace the entire cradle.

Features

- Custom fit to your Zebra tablet with rugged boot (supports expansion back)
- Features USB-A host port for accessory connection
- Power Supply Sold separately
