Product Overview

There are hundreds of shapes and sizes of cell phones and handhelds in use daily and the cases that go on those devices can be just as varied as the devices themselves. Sometimes finding the right charging solution can be daunting. The ProAdapt universal 2-Slot USB-C Charging cradle solves this problem.

With the patent pending design, virtually any handheld device from any manufacture with any case can fit into the two charging slots. This cradle is designed to fit a variety of handheld USB-C devices of many brands with or without a protective case. The side supports can adjust left to right and when the back support is adjusted to fit against the device it provides a perfect fit for almost any device shape and size. Adjustment wheels allow the user or installer to loosen, position and tighten the cradle around the device for an exact fit without the need for tools.

Features

Patent Pending

- **Adjustable Device Fit:** Can be made to fit any handheld size USB-C device
- **Device Protection:** Prevents minor damage for hand plugging cables
- **Adjustable USB-C Connector:** Adjusts up and down to fit any case or device
- **Broad USB-C Compatibility:** Fits any device with bottom facing USB-C port
- **Simplified Power:** Single plug splits power between both slots
