Product Overview

This part is needed for you to be able to attach your satellite radio dock to the vehicle mount. The Mounting Adapter consists of two parts - one Female Plate and one Male Plate attached to a Tilt-Swivel Mount. The Female Plate attaches to the back of the satellite radio dock. When appropriately attached the two plates holds your radio in an upright position securely attached to the ProClip Vehicle Mount. The Tilt-Swivel on the back of the male plate provides easy adjustment of your device's position for better viewing, the Tilt-Swivel can tilt 15 degrees in any direction.

Features

- The Male Plate attaches to a dashboard mount or flat surface
- The Female Plate attaches to the back of your device/cradle
- The Female and Male plates slides into each other and stays securely in place due to the wide V-slot/cut in the plates
