

Adjustable iPhone Holder for Lightning to USB Cable

Part #714013

\$64.99

This holder was designed to work with the original Apple Lightning Cable that came with the purchase of the iPhone. Insert the Lightning Cable into the bottom of the holder, you will hear a click once the cable is in place. The sides of the holder adjust for different size cases, covers, skins, wraps and super thin cases. The holder angles 15 degrees for optimal viewing and will rotate between portrait and landscape view, great when using turn by turn navigation. Easily view, access, operate and place your device in/out of the holder. No more fumbling around for your device!

Features

- Cable not included: Only works with original Apple Lightning to USB cable
- Fits case thickness of 3-10 mm (0.12-0.39 in) e.g. Apple Leather/Silicone, Incipio NGP, Spigen Liquid Armor
