

Non-Charging Cradle and Vibration Dampers for RFD2000 Sled for Zebra TC20/TC25

Part #710137

\$114.99

This holder is designed to accommodate the Zebra TC20/25 while it is docked in the RFD2000 UHF RFID Sled. This allows use of the TC20/25 while installed in the sled and allows the operator to see the screen.

The unique design leverages the shape of the RFD2000 and TC20/25 while they are mated to ensure it holds both devices in place securely.

The additional vibration dampers help to absorb the heavy vibrations from environments like fork lifts and prevent wear and tear on the device itself.

Features

This holder is designed to accommodate the Zebra TC20/25 while it is docked in the RFD2000 UHF RFID Sled.

- **Custom fit:** Only for the device in the RFD2000
- **Includes vibration damper:** For easier use in harsh environments

Compatibility

- Zebra TC20
- Zebra TC25
