

Charging Holder with Tilt-Swivel, USB Host Port, Key Lock and Hard-Wired Power Supply

Part #736225

\$174.99

This cradle is designed to fit the Samsung Galaxy Tab Active3 and also fits the Tab Active2.

The high sidewalls help make it easy to align and dock the tablet and keep it stable in the cradle through vibrations normal in a vehicle. This cradle features a key lock that keeps the tablet secured in the cradle until the lock is released.

Charging is done using Pogo Pins to provide a durable charging connection for the entire life of the tablet. The cradle includes a Hard-Wired Power Supply.

This cradle features a USB Host port to connect accessories like barcode scanners, cameras and more. The USB-C port and headphone jack is available to be used while docked, but the USB-C port can only be used for an extra display (DisplayPort) and only on the Tab Active3. The Tab-Active2 disables the USB-C port when docked on pogo pins.

The AMPS pattern is used on the cradle and is compatible with ProClip vehicle, pedestal, pipe and forklift mounts.
