Product Overview

This 6 In. Super-Duty Pedestal Swivel Mount features a compact profile, strength, and flexibility, allowing it to securely hold one or multiple mobile devices, making it superior to its competition.

Superior Strength - Crafted from solid-core aluminum with small interlocking teeth, this mount supports up to 500 lbs. of force.

360° Rotation - This swivel rotates 360° on the center section. The wingnut allows you to quickly loosen and adjust to keep it secured in the preferred position.

Perfect Angles - Large interlocking teeth with two wing nuts allow joints to be positioned in steps of 24°, up to a maximum of 192° (8 different positions). The round AMPS base plate surface with M4 screw slots allows you to rotate the device when attaching it to flat surfaces.

Modular - Combine this mount with other parts by mixing and matching to create a custom setup that positions your device for optimal view.

Features

- Easy adjustable swiveling center section
- Extremely strong construction supports up to 500 lbs of force
- Compact design with a solid aluminum core
- Small interlocking teeth easily adjust into 8 different positions
- Round AMPS plates (4 mm screw slots) attach to any flat surface
- Modular design – Add or combine parts to build a custom mount

Specifications

- Total height: 9.75 In. / 248 mm
- Round mounting plate diameter: 100 mm, thickness: 9 mm
- 6 outer holes for surface mounting
- Interlocking teeth in the joints - extremely strong hold
- Can be angled sideways in steps of 24 degrees up to 192 degrees
- Swiveling top for rotating viewing position
