Product Overview

Perfect for use with all types of forklifts. It will keep everything in plain sight when you need it and out of the way when you don't. Attach a device holder to the included pedestal and you are all set to go. This Pedestal Mount can angle, tilt, swivel and extend your holder/device for a better viewing position. The pedestal swivels 360 degrees horizontally and vertically. Extending 6 inches from the base, the face plate has an AMPS hole pattern to accommodate most holders, cradles, and mounts.

This product is designed to support attached devices with up to 25 lbs. of force. This means it will support approximately 2.5 lbs. of equipment with the heavy vibrations and bumps that occur in forklifts and off-road environments. To ensure the weight of the device combined with the cradle or holder does not exceed 2.5 lbs., we recommend that tablets, phones or other devices be no larger than a 6 In. screen.

Features

- Supports 2.5 lbs. of equipment in forklift
- Designed to tolerate 25 lbs. of vibration force
- Fits square bars up to 2 3/4 X 5 1/8 In.
- Strong construction
- 360 Degree swivel
- Provides a firm installation
- AMPS hole pattern for mounting
- The forklift mount can be mounted on square surfaces, perfect for forklift cages

Specifications

- Fits square bars up to 2 3/4 X 5 1/8 In.
- Color: Black
- Mount Material: Aluminum
- Pedestal Material: Aluminum & Plastic
- Total Pedestal length: 6 In. / 152 mm
- 2.13 X 2 In. AMPS Base Plate
- Wingnuts for easy adjustment
- Base can mount to tubes/plate/pipe up to 2.85 In. / 72.39 mm wide
- Comes with complete set of screws in various sizes, allowing for the forklift mount to span from 130 mm to 5 mm
- Supports 2.5 lbs. of equipment in forklift
- Designed to tolerate 25 lbs. of vibration force
