

Heavy Duty Aluminum Pipe Mount, 1 - 5 Inch.

Part #216115

\$69.99

This heavy duty aluminum pipe mount is designed to provide a secure mounting base for pedestals and holders on pipes or bars that may be hard to get around otherwise.

The mount includes M4 threaded holes that fit the AMPS pattern. The AMPS holes are offset at 90 degrees to allow for horizontal or vertical attachment.

The included rubber pads ensure a secure fit that won't slip and prevents the pipe or bar from being scratched.

The included pad that inserts into the back of the plate ensures that the mount doesn't rotate when secured and that the fasteners used don't scratch the surface of the pipe or bar.

Includes 3 rubber pads, pipe pad, clamp plate and 2 worm gear clamps.

Features

For installation of devices on pipes and bars.

- Fits Round Bars 1" to 5" in Diameter (25-130mm)
- Fits Square Bars with Side Walls 1/2 inch to 3" 1/2" Wide
- Mounting plate sized 3 1/2 inch by 2 inch (85mm x 50mm)
- Includes M4 threaded holes for fasteners.
- Attaches securely to round or square pipes and bars.
- The face plate fits the AMPS hole pattern in 90 degree offset patterns and is compatible with all ProClip holders and pedestals.
