Product Overview

This heavy duty aluminum pipe mount is designed to provide a secure mounting base for pedestals and holders on pipes or bars that may be hard to get around otherwise.

The mount includes M4 threaded holes that fit the AMPS pattern. The AMPS holes are offset at 90 degrees to allow for horizontal or vertical attachment.

The included rubber pads ensure a secure fit that won't slip and prevents the pipe or bar from being scratched.

The included pad that inserts into the back of the plate ensures that the mount doesn't rotate when secured and that the fasteners used don't scratch the surface of the pipe or bar.

Features

Allows installation of devices on larger format pipes and bars.

- Fits Round Bars 25 - 130 mm (0.98 - 5.11 in)
- Fits Square Bars 12 - 90 mm (0.47 - 3.54 in)
- Industry standard AMPS hole pattern for M4 screws

Specifications

- Fits Round Bars 25 - 130 mm (0.98 - 5.11 in)
- Fits Square Bars 12 - 90 mm (0.47 - 3.54 in)
- Industry standard AMPS hole pattern for M4 screws
- Includes: 3 strap pads, 1 pipe pad, 1 clamp plate, and 2 worm gear clamps
