

Seat Rail Mount

Part #100235

\$49.99

This seat rail mount is designed with a short solid rod and a flexible arm that can be bent to fit almost any angle.

The bottom section slides in under a seat rail bolt to provide a secure platform. The lower section then attaches to provide a firm anchor point.

The top features a wing nut and ball that will allow the AMPS plate to face virtually any direction so that any attached holder or cradle can be positioned for the most comfortable use or viewing angle for the operator.

Features

- Slides under Seat Rail Bolt
- Ball Joint Adjusts to Any Angle
- Solid Base Rod with Flexible Top
- AMPS Compatible Mounting Plate
- Compatible with ProClip Cradles and Holders
