Non-Charging Cradle with Key Lock for Zebra ET80/ET85 without Rugged Boot

Part #739297

$334.99

The cradle is designed to fit all of the configurations of ET80 Expansion Back accessories in one solution. Regardless of having just the tablet or any combination of the Expansion Back, Barcode Scanner, Hand Strap or Spare Battery, your specific combination will fit in this cradle. The folding keyboard cover is not supported.

This cradle features a steel base plate that has the AMPS and 75mm VESA hole patterns for easy attachment to vehicles, work carts or flat surfaces. It also has additional holes to enable cables to be managed with the included zip ties to ensure a clean and safe installation. This cradle features a slot for the Hot-Swap battery so it can be changed while docked.

The included Key Lock block comes with a standard key to make it easy to manage a large fleet of cradles without having to track individual keys. Random keys can be requested at the time of purchase for more secure environments.
