Product Overview

The RFD40 UHF RFID Sled is the industry standard for improving workforce efficiency, reducing overhead in counts, and scanning tabs and barcodes quickly and efficiently.

The ProClip RFD40 Sled USB-C Adapter Plate allows customers to connect the Samsung Xcover Pro to the RFD40 using the Otterbox uniVERSE case. This utilizes Zebra's 123RFID Mobile app to be used to interface with point of sale, inventory and fulfilment systems that run on the phone.

The ProClip adapter fits the Zebra single and multi-slot desktop cradles and charges the phone at the same time as the RFD40. This makes a more efficient solution that does not require separate charging and cabling for the phone.

Features

- Adapter Plate attaches directly onto the RFD40 – Wired connection (eConnex)
- Securely holds your Phone in place on the RFD40 Sled
- Integrates with Zebra single and multi-slot desktop cradles for efficient docking and charging
- Designed to work with Zebra 123RFID mobile app
- Made of high-grade Acetal plastic
- Compatible with Zebra RFD40 Premium Plus Sled

Specifications

- Samsung Xcover Pro (In uniVERSE Case)
- OtterBox uniVERSE Rail Compatible
- USB-C Connector (USB 2.0)
  - Provides USB Host and Charging Connection
- 4 x Philips Screws
  - Replaces Blank Cover Fasteners
