

## RFD40 Premium Plus Sled Lightning Adapter Plate for iPhones in OtterBox uniVERSE Case

Part #216391

**\$269.99**

The Zebra RFD40 UHF RFID Sled is the industry standard for improving workforce efficiency, reducing overhead in counts and scanning tabs and barcodes efficiently. The ProClip Lightning Adapter Plate for the Zebra RFD40 Sled allows you to use existing iPhones in OtterBox uniVERSE cases with the RFD40.

The ProClip Lightning Adapter Plate mounts on top of the RFD40 and uses the uniVERSE case rail to attach the iPhone. Simply slide your iPhone onto the plate and it docks onto the Lightning connector.

The Adapter Plate connects to the RFD40 with a pogo pin connector creating a wired connection between the iPhone and the Sled. This connection utilizes Zebra's 123RFID mobile app to be used to interface the RFD40 with point of sale, inventory and fulfillment software that runs on the iPhone.

### Features

- Adapter Plate attaches directly onto the RFD40 – Wired connection (eConnex)
- Securely holds your iPhone in place on the RFD40 Sled
- Integrates with Zebra single and multi-slot desktop cradles for efficient docking and charging
- Designed to work with Zebra 123RFID mobile app
- Made of high-grade Acetal plastic
