Product Overview

This cradle is custom fit to the Zebra ET40 / ET45 8" Tablet with the rugged boot and the expansion back. The scanner can function through the scan window on the side of the cradle while docked and locked in place.

This cradle features a backplate with AMPS and VESA 75 hole patterns for easy attachment.

The USB-A host port allows barcode scanners, keyboards, RFID readers and more to be directly connected to the cradle and communicate to the tablet through the pogo pin connection. The port includes cable retention to ensure the cable doesn't loosen over time.

This cradle is designed with a modular system that allows it to be easily upgraded and serviced without having to replace the entire cradle.

Features

- Cradle can accommodate any Zebra 'Expansion Back' or 'PowerPack' (Including Handstrap)
- Device docking via Pogo Pins
- USB-A Host data port on right side of docking block
- Data port allows connection to hubs, scanners, printers, etc.
- AMPS and VESA 75 mounting holes
- Power Supply Sold Separately
