

ModTek Dock for Android and Windows Devices

Part #216410

\$119.99

Unleash the power of USB-C with the ModTek Dock. It is universally compatible with all current and future ModTek Hard Cases.

USB-C is the industry standard for mobile devices. Unlike pogo pins which are susceptible to dust, dirt, moisture and bending, USB-C offers superior protection and enhanced data capabilities. ModTek enables connections up to 5Gbps with backward compatibility to USB 2.0 devices, while simultaneously charging the tablet.

It supports both direct power and power via the USB-C port on the back of the dock. Depending on your needs, optional hubs or splitters can be connected to this port for external connections.

The quick release dial allows for effortless one-handed docking and undocking.

The ModTek Dock helps keep your tablet protected and has undergone military-standard testing including thermal shock, forklift vibration (16Gmrs) and USB-C insertion (20K).

CASE: US Patent 11,815,224 | DOCK: For use under US Patent
