Product Overview

This cradle is designed to fit the Samsung Galaxy Tab Active5 and Active3

The high sidewalls help make it easy to align and dock the tablet and keep it stable in the cradle through vibrations normal in a vehicle. This cradle features a spring lock that keeps the tablet secured in the cradle until the lock is released.

Charging is done using Pogo Pins to provide a durable charging connection for the entire life of the tablet. The cradle includes a Hard-Wired Power Supply.

The USB-C port and headphone jack are available to be used while docked, but only the Tab Active3 supports using the pogo pins and the USB-C port at the same time.

The AMPS pattern is used on the cradle and is compatible with ProClip vehicle, pedestal, pipe and forklift mounts.

Features

- Spring Lock secures the tablet in the cradle
- Hard-Wired Power Supply
- AMPS and VESA 75MM mounting holes
- Custom fit to tablet with original skin
- Includes tilt-swivel to angle and rotate cradle
- Allows access to the USB-C Port and Headphone Jack while docked

Specifications
