Product Overview

The ModTek Hard Case allows for a direct USB-C connection between the device and the dock. USB-C has become the industry standard for mobile devices. Unlike pogo pins, which are susceptible to dust, dirt, moisture, and bending, USB-C offers superior protection and enhanced data capabilities. ModTek enables connections up to 5Gbps with backward compatibility to USB 2.0 devices, while simultaneously charging the device.

ModTek offers the ultimate protection. It shields your device from daily wear and tear in the harshest conditions while providing easy access to device functions.

ModTek has undergone independent 3rd-party testing. This includes thermal shock, forklift vibration (16Gms), USB-C insertion (20K), and 6 ft drop to concrete tests. This ensures that your device remains protected and fully functional even in the harshest environments.

CASE: US Patent 11,815,224 | DOCK: For use under US Patent 11,815,224

Features

- Easy access to all buttons, ports, cameras and the screen
- Drop tested to concrete from 6 ft
